The focus of our relationship

For more than 30 years, The ESOP Group at UBS has specialized in §1042 rollover and wealth management. Led by Keith Mericka and Leslie Lauer, the team has worked on over 600 ESOP transactions. The team's approach incorporates financial planning and asset management, which has helped clients navigate virtually every market condition—from recessions to expansions and a variety of tax environments. The combination of experience and expertise has allowed the group to cultivate long-standing relationships with their clients, guiding them on the successful transition of their private business, as well as advising them on estate planning and wealth management strategies to achieve their long-term goals.
